Re: Budget increase
By: Daniela Tuninetti, Newsletter Editor

Over the past two years, the cost of the IT newsletter has been $\$ 22,000 /$ year on average, of which approximately $1 / 3$ is for composition ("Full Service Newsletter", i.e., Design, Layout, Composition, Printing, Label \& Mailing Coordination) and $2 / 3$ for printing \& mailing. The 2007 budget is expected to be in line with the figures above.

For 2008, I would like to request also the "Web Service Newsletters" (i.e., conversions of print or non-print version of Newsletter to HTML and/or PDF for dissemination via the World Wide Web) whose cost has been so far of $\$ 525 /$ issue. Assuming the same rate for 2008, this new web service will cost an additional $\$ 2,100$ /year.
